Introduction to Machine Learning Calendar

Rauzan Sumara

16/12/2021

Date	Activities
Monday, 4 October 2021	First labs, course organization is explained
Monday, 11 October 2021	Demonstration: Regression algorithm using Python
Monday, 18 October 2021	The explanation of the project
Tuesday, 26 October 2021	Demonstration: PCA, L1, L2, Elastic Net Regression
Tuesday, 2 November 2021	The choice of dataset for the project (all teams)
Tuesday, 9 November 2021	Demonstration: Classification algorithm using Python (1)
Tuesday, 16 November 2021	Demonstration: Classification algorithm using Python (2)
Tuesday, 23 November 2021	The discussion of the project
Tuesday, 30 November 2021	Demonstration: Unsupervised Learning using Python (1)
Tuesday, 7 December 2021	Demonstration: Unsupervised Learning using Python (2)
Tuesday, 14 December 2021	Demonstration: ANN and CNN models
we will be back to arrange the class on Monday 12.15-14.00 (as the first schedule)	
Monday, 20 December 2021	No class, because we have conducted additional class on Tuesday, 2 November 2021
Monday, 3 January 2022	The discussion of the project
Monday, 10 January 2022	The Last chance for consultation of the project
Monday, 17 January 2022	Demonstration: Real-time computer vision using Python
Tuesday, 25 January 2022	**Presentation 1**
Tuesday, 1 February 2022	**Presentation 2**
